

Museum Game Dice!

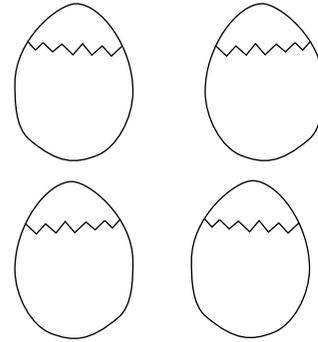

Museum of Natural History

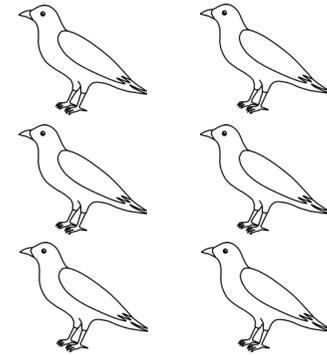

Explore the Museum and take home your very own dice!

Use the map on the back to find the location of each exciting object...

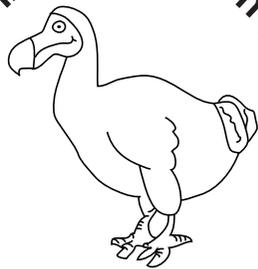

4 Fascinating Fossils

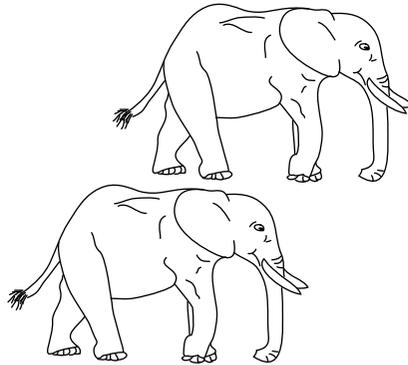

6 Feathered Friends

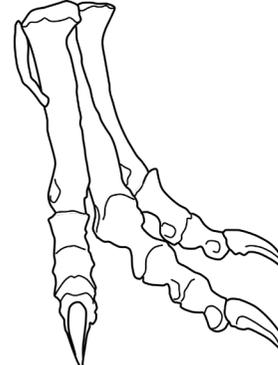

Today in the Museum I saw...

1 Delightful Dodo

2 Elegant Elephants

3 Terrifying Toes

Have you found them all?

The **1** and only! The now extinct dodo inspired Lewis Carroll when writing Alice in Wonderland. Does it remind you of a modern day bird?

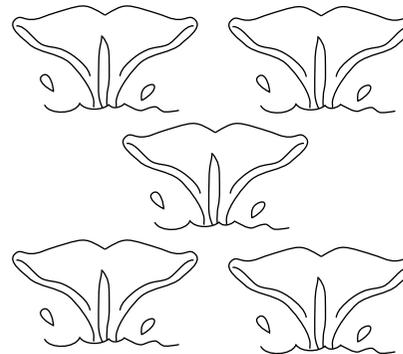

These **4** stony spheres are fossilised dinosaur eggs! Why do you think the eggs never hatched?

There are **2** types of elephant here: Asian and African. Can you tell them apart?

Look up to see **5** whale and dolphin skeletons. Which of these animals do you think would create the biggest splash?

These **3** toes belong to T.rex - 'king of the tyrant lizards'. What do you think T.rex liked to eat?

Choose **6** birds which you think have the most beautiful feathers.

5 Swimming Skeletons

When you're finished, take this sheet home...

...and turn this trail into your very own Museum dice!
